Web Developer

+92 331 4027135 moosakhan3856902@gmail.com moosakhan.vercel.app Karachi, Pakistan

## SUMMARY

I am a passionate MERN Stack Developer dedicated to creating responsive and high-performance web applications that deliver seamless user experiences. My education in artificial intelligence and modern web development, combined with my hands-on experience in various personal and professional projects, equips me to tackle complex web challenges efficiently.

## EXPERIENCE

MERN Intern - Onsite

**Bano Qabil Incubation**

12/2024 - 01/1970 Karachi

MERN Intern delivering high-quality web applications.

- Developed responsive websites using React.js, focusing on dynamic and user-friendly interfaces.
- Built backend APIs using Node.js and Express.js, ensuring scalable and efficient server-side solutions.

## EDUCATION

Bachelor in Artificial Intelligence (AI)

**Dawood University of Eng and Tech**

10/2023 - 01/1970 Karachi, Pakistan

- Mastered Programming and OOP:** Gained hands-on experience in multiple programming languages and built a solid foundation in Object-Oriented Programming principles
- Focused on Data Structures, Algorithms, and Machine Learning:** Strengthened problem-solving abilities by implementing advanced data structures, algorithms, and applying machine learning techniques

Modern Web Development

**SMIT - Saylani Mass IT Training Program**

11/2023 - 02/2025 Karachi, Pakistan

- Developing frontend applications using React.js, Next.js, and Tailwind CSS with a focus on responsive and user-friendly designs
- Building backend solutions using Node.js, Express.js, and MongoDB, with a focus on scalable and efficient server-side architectures.

Inter In Computer Science

**Islamia Science College**

06/2020 - 06/2022

## PROJECTS

Ochi: Interactive and Animated Website Design

UsePopcorn: Your Ultimate Movie Companion!

- Intuitive Search: Quickly find movies with a user-friendly search bar.
- Rating System: Rate movies and track what you've watched for a personalized experience.

Smart Exam Scheduler

Exam Scheduling System

- Designed a robust dashboard to streamline the scheduling of teachers, exams, and classrooms.
- Implemented the backend using Flask (Python), ensuring efficient handling of scheduling logic and CRUD operations.

Interactive 3D Man Animation Website

3D Animated Man Canvas Website

- Developed an engaging 3D animated man using JavaScript and HTML5 Canvas, enhancing user interaction and visual appeal.
- Showcased expertise in modern web technologies and creative problem-solving.

## KEY ACHIEVEMENTS

**Web Application Development**

Successfully developed and deployed multiple responsive web applications using the MERN stack, enhanced user experience, and streamlined backend functionality.
